Information Disclosure Statement

1. The information disclosure statement filed 7/13/06 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered. JP 11-192384 was considered in so far as an abstract translated to English language was provided; however, the Konami Official Guide was neither translated into English nor was a statement of relevance provided. Thus, the Konami Official Guide was not further considered. If Applicants desire this reference to be considered either a translation or a statement of its relevance (which may be a designation from foreign office action) must be provided.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: As best understood, there is insufficient evidence regarding Media Marketing System to render claimed invention unpatentable in so far as although EP search report designates reference anticipatory it is unclear as to what was claimed for such designation; while, the translated abstract thereof and its drawings fails to teach/suggest claimed features either alone or in combination with art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
